

# DERMA GROUP

Trusted globally for our advanced devices, accredited training, and the industry's leading aftercare service.

# ABOUT Derma Group

At Derma Group Ltd, we combine experience, knowledge, and innovation to deliver advanced aesthetics and beauty technologies.

Our founders, Roberto and James, recognised the challenge clinics face in accessing high-end, affordable devices. With a shared passion for aesthetics, they created Derma Group to empower businesses with premium technology, tailored support, and sustainable growth opportunities. Today, we partner with clinics worldwide to expand treatment options, improve cashflow, and unlock new revenue streams — helping every client achieve their business goals with confidence.

# Why partner with Derma Group?

## Outstanding service, every step of the way

At Derma Group, we provide advanced medical-grade and beauty technologies at accessible prices — combining innovation, value, and a luxury customer experience.

We partner with our clients to understand their needs, deliver tailored solutions, and support long-term business growth. With flexible purchase options and a dedicated team, we make it easier for your clinic to grow with confidence.

We prioritise strong partnerships, transparent advice, and sustainable growth — combining advanced technology with tailored support to help every clinic succeed.

## Clinically-Driven Innovation

Every device is backed by results, research, and real-world outcomes.

## Relationship-Focused

From onboarding to long-term growth, we support you at every step.

## Business-Building Support

Marketing assets, ongoing training, and smart finance options that help your clinic grow.

## In-House Service & Repairs

UK-based support with fast turnaround times. No third-party delays.

## Elite Training

Led by advanced practitioners who understand your client base — and your bottom line.

## TRUSTED GLOBALLY

By hundreds of clinics for advanced devices, accredited training, and the industry's leading aftercare service.

DERMA PRO FUSION

# The future of advanced skincare

Combining precision technology with luxury design, for transformative results.

- **3-in-1 advanced facial system** — cleanses, exfoliates, and infuses for instantly radiant skin.
- **Nanocrystal infusion technology** enhances absorption of serums, peptides, and antioxidants.
- **Customisable treatments** with 10 specialised handpieces for every skin type and concern.
- **Integrated skin analysis** ensures precision-tailored results for each client.
- **Heat & cool therapy** opens pores for deep cleansing and seals in hydration.
- **Visible results** with zero downtime and maximum comfort.

**WATCH DEVICE VIDEO**

# Transform Your Clinic with Derma Pro Fusion

**The Luxury Facial That Keeps Clients Coming  
Back!**

With 10 advanced handles, nanocrystal technology, and an integrated skin analysis system, the Derma Pro Fusion goes beyond the surface — firming, refining, and restoring the skin while addressing specific concerns.

This non-invasive innovation enhances product absorption, reduces inflammation, refines facial contours, and visibly smooths fine lines and wrinkles.

Clients experience a luxury treatment that delivers real results and keeps them coming back. More than a service, the Derma Pro Fusion is a game-changing addition to your clinic — elevating your menu, boosting satisfaction, and setting your business apart.

# Revolutionizing Skincare, Redefining Clinics

## A Cutting-Edge All-in-One Solution With Ten Advanced Handles for Maximum Results

Experience the future of advanced aesthetics with our all-in-one system, designed to transform every treatment into a results-driven luxury experience. Featuring ten precision-engineered handles, this technology delivers deep cleansing, hydration, rejuvenation, and contouring in one device — empowering clinics to elevate results, streamline services, and redefine skincare excellence.

## 10 Unique Handles

- **Aqua Peel** – Deep pore cleansing & exfoliation for flawless skin prep.
- **Oxygen Jet** – High-pressure oxygen to hydrate & refresh.
- **Oxygen Handle** – Oxygen-rich infusion to boost absorption & rejuvenation.
- **EMS Face** – Nanocrystal technology for deeper product penetration.
- **Cold-Heat** – Calm, soothe, and firm with precision temperature control.
- **Micro Lift** – EMS microcurrents to sculpt & tone facial contours.
- **Ultrasound** – High-frequency vibration to open pores & maximize absorption.
- **RF Handle** – Radio-frequency for tightening, contouring & fine line reduction.
- **Cleansing Shovel** – Ultrasonic vibration to clear impurities & refine texture.
- **Skin Analyzer** – Advanced real-time analysis for tailored treatments.

# Simple 3 Step Process

**Every Derma Pro Fusion treatment is built around a simple promise: to deliver visible, lasting results in just three steps.**

Experience the power of advanced skin renewal with the Derma Pro Fusion — a results-driven treatment designed to transform your complexion through a precise three-step process. Combining gentle exfoliation, deep hydration, and nutrient-rich infusion, each stage works in perfect harmony to cleanse, replenish, and protect your skin. The result is a visibly smoother, brighter, and healthier-looking complexion that glows from within — all in one luxurious treatment.

1

## **Cleanse & Peel**

Reveal fresh, rejuvenated skin through gentle exfoliation and soothing resurfacing.

2

## **Extract & Hydrate**

Effortlessly remove impurities from pores with gentle suction, followed by intense hydration to deeply nourish and refresh your skin.

3

## **Fuse & Protect**

Infuse the skin with a rich blend of antioxidants and peptides, enhancing your natural glow while providing essential protection.

# Visible results, lasting confidence

**Bespoke treatments tailored to every client's skin.**

The Derma Pro Fusion revolutionises skincare with advanced, non-invasive treatments that deliver visible, lasting results. From refining contours to soothing inflammation and sensitivity, each treatment is tailored to transform skin health in just 30 minutes. Clients leave with a radiant glow — and a luxury skincare experience they'll never forget.

# Grow Your Clinic with Derma Pro Fusion

**An investment in technology, an investment in growth.**

Investing in the Derma Pro Fusion isn't just about advanced treatments — it's about unlocking new revenue opportunities and building long-term client loyalty.

With versatile technology and premium results, this device empowers your clinic to expand services and grow with confidence.

## Business Benefits

**Expand Your Treatment Menu** – Offer a wider range of luxury facial services.

**Increase Client Loyalty** – Deliver visible results that keep clients returning.

**Boost Revenue** – Add high-value treatments with strong profit margins.

## Potential Revenue

Based on adding this treatment to your clinic menu:

**Weekly Growth:** +20–30% increase in total treatment revenue

**Monthly Growth:** +40–60% increase as client volume builds

**Annual Growth:** +200–400% uplift from repeat courses & new client acquisition

(Figures are indicative; actual growth varies based on clinic pricing and client volume.)

# Accredited Training with Every Device

Delivered by experts, designed for confidence.

Every Derma Group device comes with delivery, professional set-up, and comprehensive treatment training — all included with your purchase. We believe that confidence and knowledge are just as important as technology, which is why we ensure you and your team are fully equipped from day one.

# Certified to the Highest Standards

**Quality, safety, and compliance built into every device.**

At Derma Group, we are proud to be ISO 13485:2016 certified — the international gold standard for medical device quality management. This certification guarantees that every device we supply is designed and manufactured under the same rigorous system used for medical-grade equipment.

## Our Commitment to Quality

- **ISO 13485:2016 Certified** – Independently audited to the international medical device standard.
- **Medical-Grade Quality** – Built under strict systems ensuring safety, traceability, and performance.
- **CE Compliant** – Devices meet European CE safety and performance standards.
- **International Standards** – Trusted by clinics worldwide.

## What this means for you

- **Confidence** that every device is backed by internationally recognised certification.
- **Assurance** of safety, reliability, and compliance built into every stage of production.
- **Full documentation support** for clinics and distributors seeking local approvals.
