

DERMA GROUP

Trusted globally for our advanced devices, accredited training, and the industry's leading aftercare service.

ABOUT Derma Group

At Derma Group Ltd, we combine experience, knowledge, and innovation to deliver advanced aesthetics and beauty technologies.

Our founders, Roberto and James, recognised the challenge clinics face in accessing high-end, affordable devices. With a shared passion for aesthetics, they created Derma Group to empower businesses with premium technology, tailored support, and sustainable growth opportunities. Today, we partner with clinics worldwide to expand treatment options, improve cashflow, and unlock new revenue streams — helping every client achieve their business goals with confidence.

Why partner with Derma Group?

Outstanding service, every step of the way

At Derma Group, we provide advanced medical-grade and beauty technologies at accessible prices — combining innovation, value, and a luxury customer experience.

We partner with our clients to understand their needs, deliver tailored solutions, and support long-term business growth. With flexible purchase options and a dedicated team, we make it easier for your clinic to grow with confidence.

We prioritise strong partnerships, transparent advice, and sustainable growth — combining advanced technology with tailored support to help every clinic succeed.

Clinically-Driven Innovation

Every device is backed by results, research, and real-world outcomes.

Relationship-Focused

From onboarding to long-term growth, we support you at every step.

Business-Building Support

Marketing assets, ongoing training, and smart finance options that help your clinic grow.

In-House Service & Repairs

UK-based support with fast turnaround times. No third-party delays.

Elite Training

Led by advanced practitioners who understand your client base — and your bottom line.

TRUSTED GLOBALLY

By hundreds of clinics for advanced devices, accredited training, and the industry's leading aftercare service.

DERMA R|F PRO

Next-Generation R|F Performance

Innovative treatments, with multiple options to achieve maximum results.

- **Advanced radio frequency system** — tightens, lifts, and rejuvenates skin from within.
- Delivers **controlled** thermal energy to stimulate collagen and elastin production.
- **Customisable** intensity levels for face and body treatments.
- **Non-invasive & invasive options**, that are comfortable with minimal downtime.
- **Visible firming** and contouring after just a few sessions.
- **Suitable for all skin types** and year-round treatments.
- **Premium design and build** — reliable, high-performance technology for professional clinics.

WATCH DEVICE VIDEO

Triple Depth, Triple Results

Revolutionising Skin in Record Time

RIF micro-needling has changed the face of aesthetics — faster, more comfortable, and minimal downtime compared to traditional needling. But with the Derma RIF PRO, Derma Group takes it even further.

Unlike standard devices limited to a single depth, the Derma RIF PRO features Tri-Level Technology. In one seamless pass, gold-plated insulated needles deliver radio frequency energy at three depths, maximising results while cutting treatment time.

What makes Derma R|F Pro Different?

Most RF devices only treat at a single depth, limiting results. The Derma R|F PRO is engineered with Tri-Level Technology, meaning needles and radiofrequency are delivered at three depths in one seamless pass.

This unique system:

- Treats superficial, mid, and deep layers in one session
- Cuts treatment time dramatically
- Delivers long-lasting, cumulative results
- Achieves a triple collagen-boosting effect - 12,000

Why it works

The combination of micro-needling + radiofrequency stimulates collagen and elastin, tightens skin, resurfaces texture, and smooths scars and wrinkles. Because energy penetrates deeper, results are faster, more dramatic, and longer lasting.

Clients love the visible improvements to:

Wrinkles & fine lines • Acne scars & stretch marks • Pores, tone & texture • Skin laxity on face, neck & décolleté • Body concerns like cellulite & hyperhidrosis

The Future of Skin Rejuvenation

Triple-depth technology. One seamless pass. Unrivalled results.

The Derma RIF PRO is more than just a treatment device — it's a clinic growth engine. With Tri-Level Technology delivering faster, more dramatic results, you can position your clinic as a leader in non-surgical skin rejuvenation while maximising profitability.

With demand soaring for advanced, results-driven treatments, every RIF PRO session becomes an opportunity to upsell, cross-sell, and transform your clients' skin journey — making it one of the most profitable and exciting additions to your clinic.

Key Features

- **Triple-Depth Technology** – Three treatment levels in one pass for superior results.
- **Fast & Comfortable** – Minimal downtime with gold-plated insulated needles.
- **Versatile Treatments** – Targets wrinkles, scars, stretch marks, pores, laxity, and cellulite.
- **High Profit Margins** – Low treatment cost, high return per session.
- **Client Loyalty** – Lasting results encourage repeat bookings and courses.

Effective treatments, proven results.

More than a facial: a complete skin renewal system designed to refresh, restore and revitalise.

Treatments from the Derma RIF Pro offer low to minimal discomfort for your client, with no downtime, meaning your client can carry on about their day after the treatment, AND get phenomenal results. With the Derma RIF PRO, the already impressive results of our previous RIF device are now enhanced, offering a more efficient and effective solution for advanced aesthetic treatments.

Grow Your Clinic with Derma R|F Pro

An investment in technology, an investment in growth.

The Derma R|F PRO uses Tri-Level Radiofrequency Micro-Needling to deliver faster, more comfortable treatments with minimal downtime and triple the results in one pass. From wrinkles and acne scars to stretch marks and skin laxity, it rejuvenates and tightens while boosting clinic revenue with high margins and repeat bookings.

Business Benefits

Expand Your Treatment Menu – Offer results-driven, cleansing facials

Increase Client Loyalty – Deliver visible results that keep clients returning.

Boost Revenue – Add high-value treatments with strong profit margins.

Potential Revenue

Based on adding this treatment to your clinic menu:

Weekly Growth: +20–30% increase in total treatment revenue

Monthly Growth: +40–60% increase as client volume builds

Annual Growth: +200–400% uplift from repeat courses & new client acquisition

(Figures are indicative; actual growth varies based on clinic pricing and client volume.)

Accredited Training with Every Device

Delivered by experts, designed for confidence.

Every Derma Group device comes with delivery, professional set-up, and comprehensive treatment training — all included with your purchase. We believe that confidence and knowledge are just as important as technology, which is why we ensure you and your team are fully equipped from day one.

Certified to the Highest Standards

Quality, safety, and compliance built into every device.

At Derma Group, we are proud to be ISO 13485:2016 certified — the international gold standard for medical device quality management. This certification guarantees that every device we supply is designed and manufactured under the same rigorous system used for medical-grade equipment.

Our Commitment to Quality

- **ISO 13485:2016 Certified** – Independently audited to the international medical device standard.
- **Medical-Grade Quality** – Built under strict systems ensuring safety, traceability, and performance.
- **CE Compliant** – Devices meet European CE safety and performance standards.
- **International Standards** – Trusted by clinics worldwide.

What this means for you

- **Confidence** that every device is backed by internationally recognised certification.
- **Assurance** of safety, reliability, and compliance built into every stage of production.
- **Full documentation support** for clinics and distributors seeking local approvals.
